Field Crops Research

Contents of Field Crops Research, Volume 38

Vol. 38 No. 1 July 1994

Effect of nitrogen on yield determination in irrigated maize in tropical and subtropical environments
R.C. Muchow (St Lucia, Qld., Australia) 1
Canopy development, photosynthesis and radiation-use efficiency in sunflower in response to nitrogen
C. Gimenez, D.J. Connor and F. Rueda (Cordoba, Spain) 15
Unburnt bush fallows — a preliminary investigation of soil conditions in a bush fallow and two successive crops of taro (*Colocasia esculenta* (L.) Schott) in Western Samoa
D.P.C. Stewart (Apia, Western Samoa) 29
Variation of *Cannabis* for phenological development and stem elongation in relation to stem production
E.P.M. De Meijer and L.C.P. Keizer (Wageningen, Netherlands) 37
A procedure for investigating the number of genotypes required to provide a stable classification of environments
J.K. Bull (Bundaberg, Qld., Australia), M. Cooper and K.E. Basford (Queensland, Qld., Australia) 47

Book Reviews 57

Vol. 38 No. 2 August 1994

Nitrogen and density influences on silk emergence, endosperm development, and grain yield in maize (*Zea mays* L.)
J.H. Lemcoff (Buenos Aires, Argentina) and R.S. Loomis (Davis, CA, USA) 63
Analyzing the limitations set by climatic factors, genotype, water and nitrogen availability on productivity of wheat I. The model description, parametrization and validation
P.K. Aggarwal, N. Kalra, A.K. Singh and S.K. Sinha (New Delhi, India) 73
Analyzing the limitations set by climatic factors, genotype, and water and nitrogen availability on productivity of wheat II. Climatically potential yields and management strategies
P.K. Aggarwal and N. Kalra (New Delhi, India) 93
The relationship between canopy structure and high productivity in napier grass, *Pennisetum purpureum* Schumach
F. Kubota, Y. Matsuda, W. Agata and K. Nada (Fukuoka, Japan) 105
Conditions inducing fertility alteration and ecological adaptation of photoperiod-sensitive genic male-sterile rice
Z. Zhang, H. Zeng, J. Yang, S. Yuan and D. Zhang (Wuhan City, Hubei Province, China) 111

Book Reviews 121

Vol. 38 No. 3 September 1994

Testing the root growth subroutine of the CERES-Wheat model for two cultivars of different cycle length
R. Savin, A.J. Hall and E.H. Satorre (Buenos Aires, Argentina) 125

Relationships between internode elongation, plant height and leaf appearance in maize
M.J. Robertson (East Lansing, MI, USA) 135
Combining ability variation for osmotic adjustment among a selected range of grain sorghum (*Sorghum bicolor* L. Moench) lines
J. Basnayake, M. Cooper, M.M. Ludlow (Brisbane, Qld., Australia) and R.G. Henzell (Warwick, Qld., Australia) 147
Development of screening methods and identification of stable resistance to anthracnose in sorghum
S. Pande, R.P. Thakur, R.I. Karunakar, R. Bandyopadhyay and B.V.S. Reddy (Patancheru, Andhra Pradesh, India) ... 157
Response of short-duration pigeonpea to nitrogen application after short-term waterlogging on a Vertisol
R. Matsunaga, O. Ito, S. Tobita, T.P. Rao and C. Johansen (Patancheru, A.P., India) 167
Possibilities for regulation stem growth of tobacco seedlings by treatment with some growth retardants
S.G. Petkova and Y.M. Angelova (Sofia, Bulgaria) 175
